VIET TRUNG PLASTIC CHEMICAL JOINT STOCK COMPANY

CEO'S MESSAGE:

"Since our establishment in 2020, we have been committed to providing high-quality filler masterbatch for plastic products worldwide. Our expertise lies in delivering innovative solutions that enhance the performance and sustainability of various plastic applications.

As we continue to grow, I am thrilled to announce the upcoming completion of our second factory. This state-of-the-art facility not only expands our production capacity for masterbatch but also introduces a new product line: plastic film, using our own masterbatch, offers exceptional quality and versatility for diverse industries.

At our core, we prioritize customer satisfaction and environmental responsibility. We strive to meet the unique requirements of our clients by delivering tailor-made solutions and maintaining stringent quality control throughout our manufacturing process.

I would like to express my gratitude to our dedicated team of experts, who continuously push the boundaries of research and technology, committed to developing innovative formulations and staying at the forefront of the industry.

We are excited to embark on this journey with you, our valued partners. Thank you for choosing us as your trusted partner."

CEO of company

VU VAN TON

LABORATORY TEAM'S MESSAGE :

"Our laboratory team is driven by a passion for research and technology. With a focus on continuous innovation, we are dedicated to developing advanced formulations and solutions that meet the evolving needs of our customers. Trust in our expertise as we deliver excellence in every aspect of our work."

COMPANY OVERVIEW:

Established in 2020, our company began with 03 machine lines in Hung Yen, Vietnam, producing 3,000 tons per month.

In 2023, we achieved significant expansion with a fully expanded factory capacity of 7,000 tons per month - 08 machine lines.

In 2023, we established a second factory in Nghe An, Vietnam, with a designed capacity of 30,000 tons per month.

Clientele:

We proudly export our products to over 30 countries, with a monthly export volume exceeding 10,000 tons, serving more than 80 clients worldwide.

Product Range:

With customized formulas, we provide to the diverse needs of various plastic applications.

Laboratory Facilities:

Our well-equipped laboratory ensures the highest quality of each granule. Equipped with cutting-edge instruments such as Datacolor Photo Spectrometer, MFI Tester, Pilot blown film plant, Injection molding machine, Pilot laboratory extruder, and Carbon Black Dispersion Test Equipment. Mold Cavity Pressure Measurement System.

WHY CHOOSE US?

At our company, we pride ourselves on being the preferred choice for filler masterbatch production. Here are four reasons why customers trust us:

1. **Stable and Top Quality Raw Material:** Our commitment to using only the finest raw materials ensures consistent and reliable quality in every batch of filler masterbatch. You can rely on our products to meet the highest industry standards.
2. **Modern Technology:** We leverage advanced manufacturing processes and cutting-edge technology to produce filler masterbatch that excels in performance and functionality. Our state-of-the-art facilities enable us to stay ahead of the curve.
3. **Experienced & Qualified Workforce:** Our team comprises skilled professionals with years of experience in the industry. Their expertise, coupled with ongoing training, guarantees precision in every aspect of production, resulting in superior products.

4. **Technical Support 24/7:** We understand that timely assistance is crucial for our clients. That's why our dedicated technical support team is available round the clock, ready to provide guidance and resolve any queries or challenges you may encounter. When you choose us, you gain access to stable and top-quality filler masterbatch, backed by modern technology, an experienced workforce, and 24/7 technical support. Trust us to enhance the performance and appearance of your plastic products.

Our Mission:

Our mission is to empower the plastic industry with superior filler masterbatch that enhances the functionality and aesthetics of plastic products. Additionally, we are committed to developing eco-friendly plastic film solutions. We strive to be a reliable partner, offering innovative solutions, exceptional customer service, and contributing to a sustainable future.

Our Vision:

Our vision is to be a leading global player in the plastic industry, recognized for our commitment to quality, innovation, and customer satisfaction. We aim to expand our presence, forge strong partnerships, and continue pushing boundaries to meet the evolving needs of the industry.

Our service:

Our commitment to excellence in service has earned us the trust of clients worldwide. With a strong track record since our establishment in 2020, we deliver exceptional customer support, timely delivery, and personalized solutions. We are dedicated to exceeding your expectations and building long-lasting partnerships.

Our future Plan

As we look towards the future, we are excited to announce our expansion plans. Our first factory in Northern Vietnam, has the capacity of 80.000 tons per year. Our second factory, in Central Vietnam, four times larger than the existing one, will enable us to meet growing demand from our great clients.

We are not only increasing filler masterbatch production but also venturing into manufacturing plastic film using our own raw material. This strategic step reaffirms our commitment to innovation and serving our customers with comprehensive solutions.

WHAT WE OFFER

Exceptional Quality: We take pride in delivering our plastic goods of the highest quality. Our products undergo rigorous testing and quality control measures to ensure consistent performance and reliability in various applications.

Customized Solutions: Understanding that every client has unique requirements, we offer tailored solutions to meet specific needs. Our team of experts works closely with customers to develop customized formulations and provide technical support, ensuring optimal results and customer satisfaction.

Timely Delivery: We recognize the importance of timely delivery in today's fast-paced industry. With efficient production processes and a well-established supply chain, we are committed to delivering products promptly, allowing our clients to meet their production schedules and maintain business continuity.

Certified to international standards: we offer a comprehensive range of products backed by recognized global certifications : ISO 9001, FDA, REACH, TNPP, RoHS compliance

Treated CaCO₃ powder

- ✓ For PVC pipe, PVC cable, Paper.
- ✓ As key material of Plastic Masterbatch, Paint.

Filler Masterbatch

Our Filler Masterbatch offers maximum applied-ratios of 80% (with PE) and 50% (with PP), ensuring optimal cost-effectiveness when used with compatible carrier resins. While cheaper materials may reduce production costs, our Filler allows for the use of higher applied-ratios with expensive materials, resulting in cost reduction and improved product quality.

- ✓ Nonwoven Fabric & Casting Film.
- ✓ Raffia: PP Woven bags, Jumbo Bags, PE Tarpaulin.
- ✓ Injection & Extrusion: Housewares, Tanks, Toys, Pipe, PP Hollow Sheet.
- ✓ Blowing film: PE Film, Agricultural Film, Express Bag, BOPP Film, Multi-layer Film.
- ✓ Blow molding: HDPE Bottles, Containers, Cans.

Plastic Film

Designed to meet the diverse needs of various industries, our film offers exceptional durability, flexibility, and clarity. With customizable options and rigorous quality standards, we provide reliable solutions that enhance packaging, protection, and presentation for your products.

- ✓ For Packaging, Greenhouse, Mulching, Silage, Plastic Bags, Labels, Building Construction, Landscaping, Electrical Fabrication.

Color Masterbatch

- ✓ Blow films : Silage Wrap Films, Garbage Bags.
- ✓ Coating : Automotive, Black Mass Stone Coating.
- ✓ Extrusion : Water Pipe, Cables Sheath, Dripping Irrigation Pipes.
